3. Complaint Management System

3.1 Introduction

When responding to complaints, staff should act in accordance with our complaint handling procedures as well as any other internal documents providing guidance on the management of complaints.

Staff should also consider any relevant legislation and/or regulations when responding to complaints and feedback.

The five key stages in our complaint management system are set out below.

3.2 Receipt of complaints

Unless the complaint has been resolved at the outset, we will record the complaint and its supporting information. We will also assign a unique identifier to the complaint file.

The record of the complaint will document:

- the contact information of the person making a complaint
- issues raised by the person making a complaint and the outcome/s they want
- any other relevant and
- any additional support the person making a complaint requires.

3.3 Acknowledgement of complaints

We will acknowledge receipt of each complaint promptly, and preferably within (specify number) of working days.

Consideration will be given to the most appropriate medium (e.g. email, letter) for communicating with the person making a complaint.

3.4 Initial assessment and addressing of complaints

Initial assessment

After acknowledging receipt of the complaint, we will confirm whether the issue/s raised in the complaint is/are within our control. We will also consider the outcome/s sought by the person making a complaint and, where there is more than one issue raised, determine whether each issue needs to be separately addressed.

When determining how a complaint will be managed, we will consider:

- How serious, complicated or urgent the complaint is
- Whether the complaint raises concerns about people's health and safety
- How the person making the complaint is being affected
- The risks involved if resolution of the complaint is delayed, and
- Whether a resolution requires the involvement of other organisations.

Addressing complaints

After assessing the complaint, we will consider how to manage it. To manage a complaint we may:

- Give the person making a complaint information or an explanation
- Gather information from the product, person or area that the complaint is about, or
- Investigate the claims made in the complaint.

We will keep the person making the complaint up to date on our progress, particularly if there are any delays. We will also communicate the outcome of the complaint using the most appropriate medium. Which actions we decide to take will be tailored to each case and take into account any statutory requirements.

3.5 Providing reasons for decisions

Following consideration of the complaint and any investigation into the issues raised, we will contact the person making the complaint and advise them:

- the outcome of the complaint and any action we took
- the reason/s for our decision
- the remedy or resolution/s that we have proposed or put in place, and
- any options for review that may be available to the complainant, such as an internal review, external review or appeal.

If in the course of investigation, we make any adverse findings about a particular individual, we will consider any applicable privacy obligations under the *Privacy and Personal Information Protection Act 1998* and any applicable exemptions in or made pursuant to that Act, before sharing our findings with the person making the complaint.

3.6 Closing the complaint, record keeping, redress and review

We will keep comprehensive records about:

- How we managed the complaint
- The outcome/s of the complaint (including whether it or any aspect of it was substantiated, any recommendations made to address problems identified and any decisions made on those recommendations, and
- Any outstanding actions that need to be followed up.

We will ensure that outcomes are properly implemented, monitored and reported to the complaint handling manager and/or senior management.

Continuous Improvement

We are committed to improving the effectiveness and efficiency of our complaint management system. To this end, we will:

- support the making and appropriate resolution of complaints
- implement best practices in complaint handling
- recognise and reward exemplary complaint handling by staff
